30th July, 2007

To Whom It May Concern,

It has been my great pleasure to have been associated with Rick Morse for the last ten years. I have always held him in very high esteem professionally and was delighted when he agreed, five years ago, to join the National Board of the ASCH (Australian Society of Clinical Hypnotherapists). We are the largest and oldest Hypnotherapy Association in Australia.

During this time Rick has proved to be an invaluable member of the Board and has contributed to significant improvements in the efficient running of the Board and the Society. It was largely due to Rick, in his position of Chair of the Committee for Marketing and Business Growth and Development, that last year we had our most successful Convention since we inaugurated thirty-five years ago. He has an innate ability to focus on a project and direct it, from conception to completion, with the least amount of fuss.

Rick also acts as our liaison officer to our State Chapters and in this capacity single handedly calmed and resolved issues with long term, difficult and intransigent members, whom we've had issues with, sometimes, for many years. He has a curious way of working with people that is extremely rare and invaluable. Rick is a highly respected member of our profession, one of the most competent practitioners in the country, and is without exception held in the highest esteem by all.

Sincerely,

Lyndall Briggs
President
